

UGO FIX SLEEVES & UGO FIX CATHETER STRAPS – DURABLE, COMFORTABLE AND EXTRA SUPPORTIVE.

ugofix.TM
sleeve

Ugo Fix Sleeve™ (leg bag holder)

The **Ugo Fix Sleeve** supports leg bags attached to urinary catheters or sheath systems. It features an external seam to protect delicate skin from damage or marking and is manufactured from a high-quality elastane to provide comfort and support as the bag fills. It comes in sizes ranging from XS to XXL to suit anyone, plus the colour coded top seam assists with easy fitting and re-ordering.

ugofix.TM
catheter strap

Ugo Fix Catheter Strap™

The **Ugo Fix Catheter Strap** is designed to provide comfortable support for the catheter, giving your residents the freedom to move around freely and safely whilst reducing tension or trauma to the bladder and urethra.

It features silicone technology to ensure a firm grip on the skin without causing irritation or skin-marking.

Each box of **Ugo Fix Sleeves** and **Ugo Fix Catheter Straps** comes with its own laundry bag, with space to customise each residents name. Each laundry bag is labelled as requiring a 60 degree wash, supporting infection control requirements.

The healthcare service grown for you.

We provide a reliable and discreet eco-friendly service, delivering healthcare appliances and medication to care home residents across the UK.

WHAT DOES VYNE OFFER CARE HOMES?

Choose how you want to register and place orders. You can register and order online using our dedicated carers portal, where you can track all your residents' orders in one place.

Alternatively, you can register residents and order via the phone with one of our friendly customer care team. Our customer care team will check which items your residents need, so you're not overloaded with unnecessary stock!

Always discreet delivery in unmarked, eco-friendly boxes, so only you and your resident knows what's inside.

And of course, you'll find a range of eco-friendly complimentary items including dry wipes and disposable bags included with each order.

SOFT SILICONE TECHNOLOGY, CATHETER FIXATION WITHOUT COMPROMISING SKIN INTEGRITY.

We understand the importance of maintaining skin integrity for elderly residents and avoiding trauma to delicate tissues. This is why we use soft silicone technology in our catheter securement devices. This delivers effective yet gentle catheter fixation – helping to reduce the risk of pain, trauma and infection.

Both the **MultiFix Gentle** and **Ugo Fix Gentle** feature the following benefits:

- Can be worn up to 7 days.
- Can be easily removed and repositioned.
- No need to remove during personal care.
- No skin preparation required.
- Leaves no tacky residue on skin (no need for alcohol wipes).
- Reduced risk of allergic reactions due to silicone technology.

CATHETER DRAINAGE AND FIXATION PRODUCTS CREATED WITH YOUR RESIDENTS IN MIND

At Optimum Medical, we're constantly creating better. We actively seek feedback from nurses and residents alike so we can develop the most effective, person-centred catheter drainage and fixation devices available.

Here are a few of the benefits to your residents from using the **Ugo Urology** range:

REDUCED RISK OF CAUTI

It's well understood that catheter-associated urinary tract infections (CAUTI) can cause confusion/delirium. Fixating a catheter in place helps to reduce the risk of urethral trauma and associated infection, improving residents' wellbeing.

FREEDOM WHEN MOBILISING

The **Ugo Urology** range offers a variety of fixation devices including the **Ugo Fix Gentle** catheter clip, **Ugo Fix Sleeve** leg bag holder, **Ugo Fix Catheter Strap** and the **Multi Fix Gentle** for universal securement. Each device enables freedom of movement whilst providing peace of mind that the leg bag and catheter is properly secured, encouraging patients to maintain activity, mobility and independence.

DISCREET, RESIDENT-FOCUSED PRODUCTS

We understand the importance of maintaining and protecting residents' dignity. This is why we've ensured all of our products are discreetly packaged. Our **Ugo Stand with Dignity** features a removable dignity cover. Many residents feel more comfortable having the cover in place when receiving visitors.

CONSISTENT SUPPLY OF PRODUCTS

Ugo 4 Weeks (opposite) provides a 4 week supply of your residents' essential catheter drainage and fixation supplies. Provided in a discreet, compact box, for easy storage in residents' bedrooms. It comes in 4 different varieties offering different leg bag options, so you can offer your residents a choice. The 4 week supply makes it easy to know when to place the next order, reducing the risk of running out of products.

INTRODUCING THE UGO SHEATH, THE IDEAL ALTERNATIVE TO INCONTINENCE PADS.

ugo.
sheath

Ugo Sheath™

We understand that incontinence can impact your residents' well-being and quality of life. The **Ugo Sheath** can provide a secure and effective way to stay dry, enabling users to feel more comfortable and confident.

The **Ugo Sheath** is provided in compact, discreet and protective packs of 7, inside a box of 28. This useful monthly supply organises management of your resident's continence supplies, improving ordering efficiency and preventing unwanted stock piling.

Other features of the **Ugo Sheath** include:

- 100% latex-free.
- Compatible with all drainage bags.
- Discreetly packaged.
- Pubic hair protectors and travel pouch included.

ugo.
